

# QCD@LHC2017

## Monday, August 28, 2017

### Heavy ions (11:00 AM - 12:30 PM)

time	[id] title	presenter
11:00	<del>[34]</del> PHENIX results on Bose-Einstein correlation functions using a Levy analysis in Au+Au collisions at RHIC	LÖKÖS, Sándor TBA
11:30	<del>[31]</del> PHENIX results on three particle Bose-Einstein correlations in $\sqrt{s_{NN}} = 200$ GeV Au+Au collisions	KINCSES, Daniel TBA
12:00	<del>[35]</del> Non-extensive Statistics Motivated Fragmentation for Hadron Production in High-Energy Collisions	TAKÁCS, Ádám

# Tuesday, August 29, 2017

## Heavy ions (11:00 AM - 12:30 PM)

time	[id] title	presenter
11:00	<del>A30</del> HIJING++ a New Generation of Hadron Interaction Generator for the Future's Nucleus-Nucleus Collisions at High-energies	BARNAFOLDI, Gergely Gabor
11:30	<del>A20</del> Charmed meson and baryon production in pp collisions with ALICE at the LHC	VERMUNT, Luuk
12:00	<del>P10</del> Heavy-flavour production in heavy-ion collisions at the ALICE experiment	Dr VERTESI, Robert
