

Website status

A “reminder” based on the website design activities performed by Sara Reda at LNF and Giovanni’s presentation in Madrid

Name Registration

- The new website www.eu-tiara.org now registered and hosted on the LNF servers. Only a dummy page appears now to the public.
- *To see its structure –today still mostly empty- you must connect at*
 - **www.eu-tiara.org/wp-login.php**
 - User: tiara
 - Pwd: xxxxxx
- Old site www.eu-tiara.eu maintained for future reference (site registered by CEA)

Public Page now!

Extract of the «About Us» page

Test Infrastructure And Accelerator Research Area

The main objective of TIARA is the integration of national and international accelerator R&D infrastructures into **a single distributed European accelerator R&D facility** with the goal of developing and strengthening state-of-the-art research, competitiveness and innovation in a sustainable way in the field of accelerator Science and Technologies in Europe.

Besides maximizing the benefits for the owners of the infrastructures and their users, TIARA aims at establishing a framework for developing and supporting strong joint European programmes:

- for accelerator Research and Development
- for education and training
- for enhancing innovation in collaboration with industry

The Impact Of Accelerators On Society

Particle accelerators are being applied throughout society. Originally developed for fundamental research, today they are used for a range of applications, from healthcare to manufacturing silicon chips to reducing pollution.

February

The **Events** in the **Agenda** can be organized in either of these two forms (must be chosen):

- List-like
- or
- Calendar-like

Events are arranged in Categories, we propose :

- **Management Meetings** (they may appear also in the Management sub page),
- **Workshops** (these may appear Management sub page),
- **Public events** (these may appear Communication sub page).
- subcategories can be added

Each **event** of the Agenda has fields for the Title, Abstract, speaker, date, location+google map, event category, link to an Indico page, slides e/o minutes, image or poster shown. Other fields may be implemented.

Details	Venue
Date: February 2, 2016 Time: 10:00 am - 5:00 pm Event Category: Management Meetings Webid: https://indico.cern.ch/event/483876/	CERN 365 Route de Meyrin Geneva, Switzerland + Google Map

Access Restrictions

TIARA CB, CERN, 2 March 2017

- Modification privileges for
 - News
 - Calendar
 - Minutes of CC
 - (3-5 individual people?)
- Reading privileges for Official Documents
 - (1 shared password between all members \approx 30 people or again individual passwd)

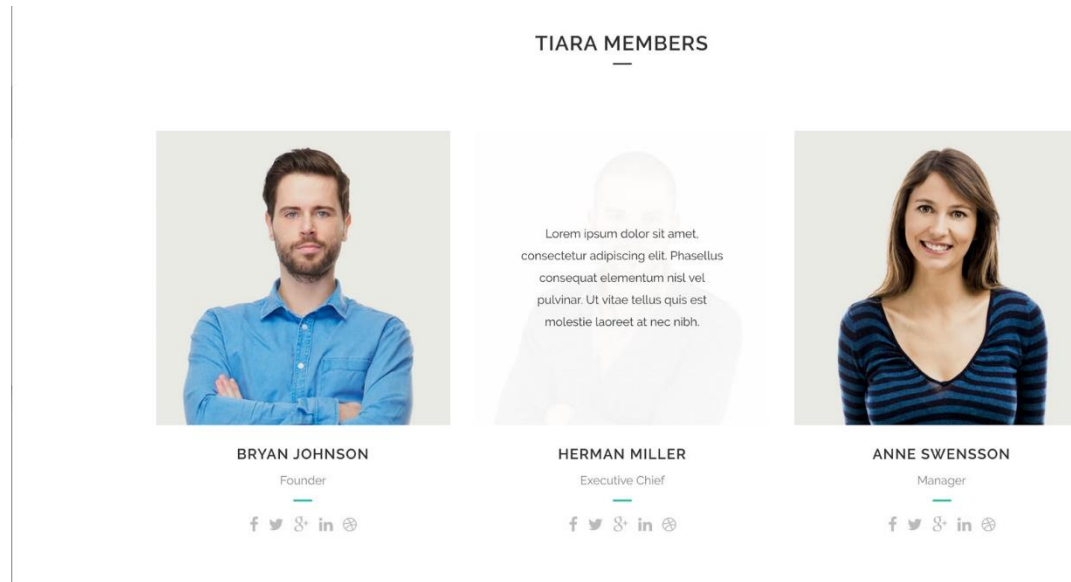

TIARA Members Page?

Tiara Members Page

- With Photo/links/short CV?
- Connected to the Organigram ?

Style Issues

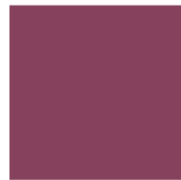

- The caption below the new TIARA logo appears small in many instances, would it be possible:
 - to have a version with a lighter colour?
 - to have a version with larger fonts?
 - to have a vector version of the logo file?
- In general, the colour palette exploited in the website has been “reverse engineered” from the logo. Is there an official (better) one?
