

PSD11: The 11th International Conference on Position Sensitive Detectors

Tuesday 05 September 2017

Detectors for ground and space-based astronomy, planetary and space science (II) - Berrill Lecture Theatre (OU)

(16:25-18:05)

time	[id] title	presenter
16:25	[12] The SMILE Soft X-ray Imager (SXI) CCD design and development	SOMAN, Matthew
16:45	[84] On-Ground and In-Orbit Characterisation Plan for the PLATO CCD Normal Cameras	GOW, Jason
17:05	[14] Initial trap pumping results from the Euclid CCD273 radiation campaign	SKOTTFELT, Jesper
17:25	[105] Radiation testing of Solid State Detectors flying on the JUICE mission	Dr GILLHAM DARNLEY, Richard
17:45	[60] Calibration Techniques for CCDs in the Presence of the Brighter Fatter Effect	Dr WEATHERILL, Daniel
