

PSD11: The 11th International Conference on Position Sensitive Detectors

Monday 04 September 2017

X-ray and gamma-ray detectors - Berill Lecture Theatre (OU) (11:00-12:50)

time	[id] title	presenter
11:00	[61] Chromatic X-ray imaging with a fine pitch CdTe sensor coupled to a large area photon counting pixel ASIC	BELLAZZINI, Ronaldo
11:30	[34] Performances of depleted Monolithic Active Pixel Sensor in a high-resistivity CMOS process for X-ray detection	HEYMES, Julian
11:50	[78] Processing of Cadmium Telluride (CdTe) X-ray pixel detectors	Ms GÄDDA, Akiko
12:10	[87] Detector requirements for single mask edge illumination x-ray phase contrast imaging applications	KALLON, Gibril
12:30	[103] Detectors for use with high-intensity laser-driven sources of radiation	RICHARDS, Sion
