

PSD11: The 11th International Conference on Position Sensitive Detectors

Thursday, September 7, 2017

Detectors for high energy physics and astrophysics (III) - Berrill Lecture Theatre (OU) (4:50 PM - 6:20 PM)

time	[id] title	presenter
4:50 P	[127] Silicon microstrip detector for space-borne astroparticle experiments	Dr AMBROSI, Giovanni
5:20 P	[25] A High-Granularity Timing Detector for the Phase-II upgrade of the ATLAS Calorimeter system	GRINSTEIN, Sebastian
5:40 P	[65] CMOS pixel development for the ATLAS experiment at HL-LHC	RIMOLDI, Marco
6:00 P	[97] Study of prototypes of LFoundry active and monolithic CMOS pixels sensors for the ATLAS detector	VIGANI, Luigi
