

Session Program

16-21 Sept 2018

EMIS 2018

Session 4 -Instrumentation for radioactive ion beam experiments

CERN, 500/1-001 - Main Auditorium

Monday 17 September

16:00

Session 4 - Instrumentation for radioactive ion beam experiments

Session | Location: CERN, 500/1-001 - Main Auditorium | Convener: Navin Alahari

16:00-16:30 Status of the Super-FRS project at FAIR

Speaker

Dr Haik Simon

16:30-16:50 The SECAR System for Nuclear Astrophysics Measurements at FRIB

Speaker

Prof. Couder Manoel

16:50-17:05

Development of a multi-segmented proportional gas counter for β -decay spectroscopy at KISS

Speaker

Momo Mukai

17:05-17:20 Current Status of Experimental Facilities at RAON

Speaker

Young Jin Kim

17:20
