

Session Program

16-21 Sept 2018

EMIS 2018

Session 5 - Instrumentation for radioactive ion beam experiments

CERN, 500/1-001 - Main Auditorium

Tuesday 18 September

09:00

Session 5 - Instrumentation for radioactive ion beam experiments

Session | Location: CERN, 500/1-001 - Main Auditorium | Convener: Hideyuki Sakai

09:00–09:30

Recent progress and developments for experimental studies with the SAMURAI spectrometer

Speaker

Yosuke Kondo

09:30–09:50

Study of spin-isospin responses of radioactive nuclei with background free neutron spectrometer, PANDORA

Speaker

Dr Laszlo Stuhl

09:50–10:10

New energy-degrading beam line for in-flight RI beams, OEDO

Speaker

Dr Shin'ichiro Michimasa

10:10–10:30

Status and future plans for MRTOF mass measurements at RIKEN-RIBF

Speaker

M. Rosenbusch

10:30
