

Session Program

16-21 Sept 2018

EMIS 2018

Session 7 - Instrumentation for radioactive ion beam experiments

CERN, 500/1-001 - Main Auditorium

Tuesday 18 September

14:15

Session 7 - Instrumentation for radioactive ion beam experiments

Session | **Location:** CERN, 500/1-001 - Main Auditorium | **Convener:** Prof. Christoph Scheidenberger

14:15-14:45

Gamma-ray tracking with AGATA: A new perspective for spectroscopy at RIB facilities

Speaker

Peter Reiter

14:45-15:05

The ISOLDE Decay Station - a Swiss Army knife for nuclear physics

Speaker

James Cubiss

15:05-15:25

Advanced scintillators for fast-timing applications

Speaker

Luis Mario Fraile

15:30
