

## Session Program

16-21 Sept 2018

## EMIS 2018

### ***Session 15 - Techniques related to high-power radioactive ion beam production***

CERN, 500/1-001 - Main Auditorium

# Friday 21 September

09:00

## Session 15 - Techniques related to high-power radioactive ion beam production

Session | Location: CERN, 500/1-001 - Main Auditorium | Convener: Carmen Angulo

09:00-09:30

### High-power target development for the next-generation of ISOL facilities

**Speaker**

Dr Lucia Popescu

09:30-09:50

### Towards 100 kW targets for electron driver beams at the TRIUMF-ARIEL Facility

**Speaker**

Dr Thomas Day Goodacre

09:50-10:10

### BRIF: from the first proton beam to RIB production

**Speaker**

Prof. Tianjue Zhang

10:10-10:30

### Current status of Isotope Separation On-Line (ISOL) facility at RAON

**Speaker**

Dr BH KANG

10:30
