

# New Visualization web page

I added a new Visualization page to the HSF website *Thanks, Michel and Benedikt!*

There we can collect all the materials relevant to our activities, links to all our meetings, links to technologies/tools we should try/test/look at, demonstrators, and so forth.

You can find it here: [hepsoftwarefoundation.org/activities/visualization.html](http://hepsoftwarefoundation.org/activities/visualization.html)

Feel free to propose content.: [hepsoftwarefoundation.org/howto-website.html](http://hepsoftwarefoundation.org/howto-website.html)

You can fork it from GitHub: [github.com/HEP-SF/hep-sf.github.io](https://github.com/HEP-SF/hep-sf.github.io)
