

# 2nd International Workshop on QCD Challenges from pp to AA

## Wednesday, 1 November 2017

### Heavy flavor and Quarkonia: Heavy flavor and Quarkonia (09:55 - 10:55)

time	[id] title	presenter
09:55	[5] Quarkonium production in dilute and dense systems	
10:30	[17] Neutral pion and $\eta$ meson production in pp and p-Pb collisions with ALICE at the LHC	Dr GONZÁLEZ ZAMORA, Pedro

### Heavy flavor and Quarkonia: Heavy flavor and Quarkonia (11:10 - 12:55)

time	[id] title	presenter
11:10	[4] Investigating the multiplicity dependence in pp, pA and AA with EPOS 3	Dr GUIOT, Benjamin
11:45	[35] D meson nuclear modification factor and $v_n$ harmonics in PbPb collisions at 5.02 TeV with CMS	WANG, Jing
12:20	[41] Open beauty production and modifications in PbPb collisions at 5.02 TeV with CMS	WANG, Ta-Wei
