

Session Program

23-27 Oct 2017

Diffuse Synchrotron Emission in Clusters of Galaxies - What's Next?

Thursday Afternoon

Hortus Botanicus, Leiden

Thursday 26 October

13:45

Thursday Afternoon: I

Session | **Location:** Hortus Botanicus, Leiden | **Convener:** Andra Stroe

13:45–14:05

X-ray study of the merging double-radio-relic cluster Abell 3376 with Suzaku

Speaker

Igone Urdampilleta

14:05–14:25

An ABC estimate of the CR electron content in galaxy clusters through radio relics

Speaker

Jakob Gelszinnis

14:25–14:45

The Corona Borealis supercluster seen with LOFAR

Speaker

Dr Alexander Drabent

14:45–15:05

A combined JVLA and Chandra study of the “Kite” radio source in Abell 2626

Speaker

Alessandro Ignesti

15:05
