

**SUSY07****Thursday, 26 July 2007****Cosmology 2 - Lehmann-Auditorium (16:30 - 18:30)**

time	[id] title	presenter
16:30	[112] Indirect searches for Dark Matter with AMS02	Dr BRUN, Pierre
16:50	[233] The dark connection between the Canis Major dwarf, the Monoceros ring, the gas flaring, the rotation curve and the EGRET excess of diffuse Galactic Gamma Rays	Prof. DE BOER, Wim
17:10	[107] Supersymmetric Interpretation of the EGRET excess in diffuse Galactic gamma rays	Dr SANDER, Christian
17:30	[254] Determination of the Dark Matter profile from the EGRET excess of diffuse Galactic gamma rays	Mr WEBER, Markus
17:50	[245] Uncertainties of the antiproton flux from dark matter annihilation in comparison with the EGRET excess of diffuse gamma rays	GEBAUER, Iris
18:10	[147] The anomaly in the cosmic ray positron spectrum	Dr OLZEM, Jan
