Big Data –view from National Institute on Aging at the National Institutes of Health

Friday, 19 May 2017 13:30 (30 minutes)

Dr. Silverberg will describe some large, NIH and NIA initiatives, such as BD2K, that begin to address big data challenges of current health related research. Additionally, multiple examples of NIH and NIA research projects will illustrate the ever increasing needs for big data solutions. Finally, a few relevant funding opportunity announcements will be shared.

Presenter: Dr SILVERBERG, Nina (National Institutes of Health)

Session Classification: Funding Agency Perspectives
