## Data in the Research Cyberinfrastructure Ecosystem

*Friday 19 May 2017 14:00 (30 minutes)*

This presentation discusses some of NSF's data programs in the context of advancing the research cyberinfrastructure. This includes interfaces with the physical layer (high performance computing, networking), software, and the research disciplines as well as the potential roles and responsibilities of different stakeholders.

**Presenter:** FRIEDLANDER, Amy (National Science Foundation)

**Session Classification:** Funding Agency Perspectives

**Track Classification:** Funding Agency Perspectives
