

Symposium of the Center for Network and Storage Enabled Collaborative Computational Science

Thursday 18 May 2017 - Friday 19 May 2017

University of Michigan

Scientific Programme

Science Use-Cases

Examples of science use-cases facing challenges in collaborative access to large, diverse or distributed data.

Related Projects

Existing projects working to address the challenges to collaborating with large, diverse or distributed data.

Funding Agency Perspectives

Funding agency perspectives on current and future support for the Center's focus areas

Complementary Technology Solutions

Presentations on relevant technologies that can help resolve some of the challenges the Symposium is covering.
