

# 9th International Workshop on Multiple Partonic Interactions at the LHC

## Monday, 11 December 2017

### WG4: Small-x and Diffraction - Conference Hall (11:10 - 13:10)

time	[id] title	presenter
11:15	[31] Central exclusive production at LHCb	BELYAEV, Vanya
11:35	[71] Studies of Diffractive Events with H1 and ZEUS Detectors at HERA	Dr KAUR, Prabhdeep
11:55	[72] Low-x and diffraction measurements at RHIC	MONDAL, Mriganka Mouli
12:15	[56] An analytical approach to Froissart bound in a proton structure function	Dr JAHAN, Akbari
12:35	[40] Very forward jet, Mueller Navelet jets and jet gap jet measurements in CMS	CERCI, Salim
12:55	[27] Looking for BFKL dynamics at the LHC using jet gap jet events	ROYON, Christophe

# Wednesday, 13 December 2017

## WG4: Small-x and Diffraction - Conference Hall (14:30 - 15:50)

time	[id] title	presenter
14:30	[8] Elastic and Inelastic Cross Section Measurements with the ATLAS Detector	MORTENSEN, Simon Stark
14:50	[78] The Electron-Ion Collider project	DESHPANDE, Abhay
15:10	[39] CT-PPS physics results and prospects	ROYON, Christophe

# Thursday, 14 December 2017

**WG4: Small-x and Diffraction - Conference Hall (12:20 - 12:40)**

time	[id] title	presenter
12:20	[62] Diffractive results from CMS and TOTEM	MAZUMDAR, Kajari MAZUMDAR, Kajari
