

Probing fundamental physics with CMB spectral distortions

Thursday 15 March 2018

Foregrounds - 503/1-001 - Council Chamber (10:00 - 12:00)

time	[id] title	presenter
10:00	[18] Atmospheric effects in ground-based measurements of spectral distortions	BATTISTELLI , Elia
10:25	[19] Forecasting with foregrounds: searching for optimal spectral distortion mission configurations	ABITBOL, Max
10:50	Coffee	
11:10	[20] Extracting anisotropic μ -type spectral distortions	REMAZEILLES, Mathieu
11:35	[21] Differential FTS measurements of anisotropic spectral distortions: OLIMPO and future space missions	MASI, Silvia
