

A clash of kings Microscopic vs macroscopic models

But a civilized clash!

Discussions and questions

- Plenty of time allocated for discussions
 - 5 minutes at end of each talk, but more can be used if needed (there are buffers)
 - Dedicated discussion session
- Let us (Konrad, Paolo, Peter, Urs) know if you have a question/topic for the discussions session
- Safe 10 minutes: speakers can stop early discussion to ensure they can formulate their first idea

Different words for the same thing?

Real Smurfs call them smurf-
openers, pencil pusher!

Real Smurfs call them bottle-
smurfs, muscle mouth!

Hydro vs shoving?

Or fundamental differences?

Is strangeness enhanced in AA
or suppressed in pp collisions?

Let's get ready
to **RUMBLE!!!!!!**
