# Compact RIO cassette in Slow Control system

*Friday, 10 November 2017 13:30 (10 minutes)*

Throughout my presentation I will show the possibilities which C-RIO cassette gives in Slow Control system, based on an example of RACK cooling system. I will present the basics of RACK cooling system and how it can be deployed using Compact RIO embedded system based on Compact RIO cassette and specialized Compact RIO modules, NI9871 [RS-485 serial communication] and NI9375 [digital I/O].
