Distribution electric energy to control RACK's power supply

Friday, 10 November 2017 10:40 (10 minutes)

Presentation include informations about RACK's hardware that allow safety three-phase circuit power supplying. There will be also informations about programming National Instruments 9403 and 9475 modules, that could be helpful in developing intelligent power supplying system in future. This presentation is focused on building RACKS's power supplying hardware, less on software.
