

Session Program

4-6 Sept 2009

8th thematic workshop: International Symposium On Advanced Intraoperative Imaging of Radioisotopes and Presymposium workshop TOF PET

Pre Symposium Session 2 : The Role of Scintillators and Photodetectors (Continued)

Hotel Baia delle Zagare
71030 - Mattinata - Gargano - Italy

Friday 4 September

15:30

Pre Symposium Session 2 : The Role of Scintillators and Photodetectors (Continued)

Session | **Location:** Hotel Baia delle Zagare, 71030 – Mattinata – Gargano – Italy

15:30-16:00

Recent results on silicon photomultipliers : Measurements and Comparisons

Speaker

P Finocciaro

16:00-16:30

TOF PET : Continous vs pixellated scintillators and PMTs vs SiPMs

Speaker

T Szczesniak

16:30-17:00

Microelectronics for fast timing. The high energy physics prospective

Speaker

A Rivetti

17:00
