

Physics Beyond Colliders Annual Workshop

Wednesday, 22 November 2017

New ideas: Abstracts received - 500/1-001 - Main Auditorium (14:00 - 15:30)

time	[id] title	presenter
14:00	[2] Light Dark Matter Searches with Carbon Nanotubes	POLOSA, Antonio
14:15	[4] A new experiment for axion-like particle search	SPAGNOLO, Paolo
14:30	[41] Measuring vacuum magnetic birefringence with static high-field superconducting magnets	ZAVATTINI, Guido
14:45	[48] Precision measurements in nuclear beta decay at ISOLDE	GONZALEZ-ALONSO, Martin MALBRUNOT, Stephan
15:10	[49] Search for new physics via EDM of heavy and strange baryons at the LHC	MARTINEZ VIDAL, Fernando
