

HSF CWP: Software Development, Deployment and Validation

Giulio Eulisse, Patricia Mendez Lorenzo, Graeme Stewart

Timeline so far

- October 2016 — Community White Paper process starts (slowly!)
- 23-27 January 2017 — CWP Workshop in San Diego, definitely useful discussions
- May 2017 — Patricia, Giulio and I start to think about final white paper
- 18 May 2017 — First post-SD group meeting
- **6 June 2017 — This meeting!**

To Annecy

- After the last meeting we progressed significantly in the document structure
 - Identify the scope
 - Pose the main challenges
 - Expand on the challenges and identify solutions
 - Conclude with key points and opportunities
- Main objective for today is to look at the substantive sections and identify missing pieces
 - Along with contributors to fill them in
- We want to release a draft* soon, end of this week? (And certainly no later than 16 June)
 - With some commenting enabled
- Discussion at Annecy to focus on any contentious or unresolved points
