

2nd World Summit on Exploring the Dark Side of the Universe

Wednesday, June 27, 2018

Session 3: Neutrino Cosmology (9:35 AM - 3:20 PM)

time	[id] title	presenter
9:35 AM	[73] B-physics anomalies, Lepton Universality Violation and Cosmology	GUADAGNOLI, Diego
10:10 AM	Coffee break	
10:40 AM	[39] Leptonic CP Violation and matter-antimatter in the Universe	PETCOV, Serguey
11:15 AM	[74] Constraints on neutrino masses from cosmological observations	HOENEISEN, Bruce
11:45 AM	[22] Neutrino detectors status and prospects	MESSIER, Mark
12:30 PM	Lunch break	
1:45 PM	[57] Multimessenger astrophysics: the ultra high-energy picture with the Pierre Auger Observatory	COUTU, Stephane
2:20 PM	[23] ANDES project	BERTOOU, Xavier
2:50 PM	[24] Neutrino telescope: IceCube results and prospects	Prof. AGUILAR SANCHEZ, Juan Antonio
