Hands on: the proposed new BOINC contribution workflow

Christian Beer

- BOINC enthusiast since 2004

- system administrator since 2006

- RNA World administrator since 2009

- software developer since 2015

- Einstein@Home staff from 2015 – 2017

- project website (public/ops)

- locality scheduler

- build automation

Agenda

- How to use the GitHub web interface to manage distributed development
  - https://github.com/BOINC/boinc/issues/
  - https://github.com/BOINC/boinc/projects/

- Exercising the new workflow using an example
  - https://github.com/BOINC/boinc/issues/2064
