Site & Travel Links[Follow us on Facebook](#)**Meeting Description**

The Gordon Research Conference on Particle Physics is a unique forum for both senior scientists and the younger generation to present and exchange new data and cutting edge ideas.

The meeting will cover a wide range of topics. A key goal is to bring together scientists working in theory and experiment at all frontiers of particle physics, ranging from the LHC and other future high energy colliders over precision and intensity frontier approaches to the increasingly important study of astroparticles and the early universe at the cosmic frontier. The meeting will provide an excellent opportunity for theorists and experimentalists to communicate with each other, inspire each other and form collaborations in the search for new physics and in the quest to answer long standing questions about the fundamental laws that govern our universe.

Related Meeting

This GRC was held in conjunction with the "Particle Physics" Gordon Research Seminar (GRS). Refer to the [associated GRS program page](#) for more information.

Dear Chair of a 2019 "Session II" (Summer) GRC,

Please take a moment to review the information below as you consider your preferences for scheduling the next meeting. The list includes sites that GRC is considering for use during "Session II" (June - August) in 2019. All GRCs meet on a standard cycle during the same Session. Sites and dates of availability are subject to change. GRC may not schedule at all the sites indicated and times may shift based on availability and need. GRC operates at sites and during specific weeks that will promote the spirit of GRC and provide cost effective services to all conferences. The timing in Europe and Asia varies each year depending on the availability of sites, the number of conferences to schedule, and the operational plan for each season. All GRCs are encouraged to consider meeting in Asia! Additional information for current operating sites (including photos) is available online at www.grc.org. Please feel free to discuss any site and scheduling preferences with the Conference Site Manager during your conference week, or contact Gerri Miceli, GRC Program Manager, at gmiceli@grc.org.

SITE	LOCATION	ACCOMMODATIONS	Maximum Number of Registrants	2017 Estimated Single Room Registration Fee (USD)	2018 Estimated Single Room Registration Fee (USD)
United States					
Bates College	Lewiston, Maine	Residence Hall	200	\$ 900	\$ 945
