

40èmes Journées des Actinides & 2nd Workshop on Actinide Targets

Saturday 27 March 2010 - Thursday 01 April 2010

CERN

Scientific Programme

Nuclear fuel cycle, environment /
/ Inorganic, organometallic chemistry /
/ Theory, electronic structure /
/ Materials science, nanomaterials /
/ Strongly correlated behaviours, superconductivity, quantum criticality /
/ Actinide production /
/ Fission products and Radioactive Ion Beam Yields/
/ Actinide handling /
/ Radiation protection

Nuclear fuel cycle, environment

Inorganic, organometallic chemistry

Theory, electronic structure

Strongly correlated behaviours, superconductivity, quantum criticality

Materials science, nanomaterials

Actinide production

Fission products and Radioactive Ion Beam Yields

Actinide handling

Radiation protection
