

40èmes Journées des Actinides & 2nd Workshop on Actinide Targets

Thursday, 1 April 2010

WAT-III - 503/1-001 - Council Chamber (09:00 - 13:30)

time	[id] title	presenter
09:00	[78] Plans For the Production Building at the future Radioactive Ion Beam production laboratory SPIRAL 2 at GANIL and handling of the targets	QUICLET, Mathieu
09:30	[65] use of actinide targets at the HRIBF	STRACENER, dan
10:00	[4] Actinide Target Use at ATLAS	Mr GREENE, John
10:30	[68] Measurements of neutron capture and fission cross-sections on actinides at n_TOF	Dr COLONNA, Nicola
11:00	Coffee break	
11:30	[70] Remote and optimized inspection, measurement and handling for radiation areas at CERN.	
12:10	[64] Dose coefficients for radiation protection at present and future RIB facilities	OTTO, thomas
12:40	[71] Summary and Closure
