

Session Program

27 March 2010 to 1 April 2010

40èmes Journées des Actinides & 2nd Workshop on Actinide Targets

Materials I

CERN, 503/1-001 - Council Chamber

Sunday 28 March

09:00

Materials I

Session | **Location:** CERN, 503/1-001 - Council Chamber

09:10-09:20

Opening of conference

09:20-09:40

Solid state physics at ISOLDE: using radioactive ion beams to study materials

Speaker

Dr Karl Johnston

09:40-10:00

Recent progress in the synthesis and characterization of uranium carbide compounds

Speaker

Dr Olivier TOUGAIT

10:00-10:20

Study on the U-Co-Ge ternary system at 973K

Speaker

Mr Arnaud Soudé

10:20-10:45

Coffee Break

10:45
