# Programme Website

The screenshot shows the homepage of the International High School Teacher Programme 2018 website. The header features a blue banner with the program title and a globe icon made of flags. Below the banner, the date '1-21 July 2018' and 'CERN Europe/Zurich timezone' are displayed. A search bar is located in the top right. The main content area is divided into a left sidebar with 'Overview' and 'Timetable' tabs, and 'Administrative Support' contact information for Maureen Prola-Tessaur. The main text describes the 3-week residential program, its history, and the 2018 schedule. It includes contact details for the Teacher Programme Manager, Jeff Wiener, and emergency contact information for the CERN fire brigade. A clock icon indicates the start and end times, and a location pin shows the program is at CERN. A note states 'There are no materials yet.' and a final note mentions that scientific program details will be provided via email.

This 3-week residential programme, which has been taking place every year since 1998 at CERN during the month of July, is open to Science High School Teachers from all CERN member and observer States, as well as from other countries subject to funding availability, who would like to update their knowledge of particle physics, its associated technologies and related subjects.

The **International High School Teacher Programme 2018** will take place from 1 - 21 July 2018. Lectures, on-site visits, exhibitions, and hands-on workshops will introduce its participants into cutting-edge particle physics. We hope our participants will go back as ambassadors, who pass on the subject to our next generation of physicists, engineers, IT specialists and and and ...
