

XXVI International Workshop on Deep Inelastic Scattering and Related Subjects

Wednesday, April 18, 2018

WG1-WG6 Joint Session - 502 (9:00 AM - 11:00 AM)

time	[id] title	presenter
9:00 AM	[258] Recent Spin Structure Function Measurements from CLAS at Jefferson Laboratory	Dr FERSCH, Robert
9:25 AM	[128] Recent STAR Results on the Measurement of the Unpolarized and Polarized Light Quark Flavor Structure of W-Boson Production at RHIC at BNL	SURROW, Bernd
9:50 AM	[175] W Measurement at PHENIX	Dr KIM, Chong
10:10 AM	[225] First extraction of transversity from electron-proton and proton-proton data	RADICI, Marco
10:35 AM	[292] Extraction of Transverse Momentum Distributions from semi-inclusive DIS and Drell-Yan data.	DELCARRO, Filippo
