

# ICFA ABDW #45

ERL 09

Karl Smolenski

Georg Hoffstaetter

Cornell University

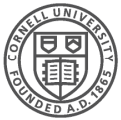

Lab for Elementary Particle  
Physics

- Energy Recovery Linac 09
- 3<sup>rd</sup> Biennial meeting
- JLab 05 – Daresbury 07 – **Cornell 09** – KEK 11

# By the numbers

- 173 Registrants \*
- 31 Plenary talks
- 69 talks in 3 parallel working group sessions
- 15 Posters (displayed all week)
- 5 Industrial participants (poster / display / talk)
- 2 Supported undergraduate students

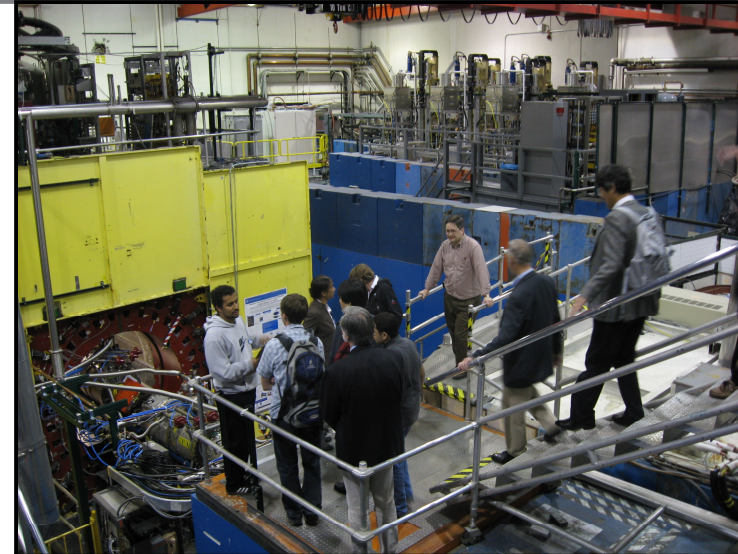

\* Careful crafting of US Visa invitation letters...

# “Standard” Workshop

- Welcome reception
- Facility tours
- Picnic / Sightseeing trip
- Banquet / Dinner speaker

# Complex Structure

- Daily plenary and working group sessions
- 3 parallel sessions
- Overlap with satellite X-ray applications meeting
- Coupled with request of WG conveners for extended discussion / QA / collaborative time.

# Proceedings

- Indico for registration / scheduling
- Transparencies uploaded nightly
- No planned CD / USB to participants
- No abstracts or submissions in advance
- Voluntary proceedings contributions 60 days after meeting (~12)
- Organized summary / review papers from each working group – slow progress (2 of 4 received)
- New collaborative work valued more than past individual results

# Thank you to organizers

- As first time JACoW participants, how best to prepare for our next meeting in 2010?
- Indico / SPMS
- Proceedings processing for JACoW
