Non JACoW work

- Strong request
 - “I want to see slides for writing conference report ASAP”
- PPT to PDF conversion and upload.
 - Quick and dirty
 - Batch job software
 - We bought a shareware software.
 - Google apps has facility but limited functions
 - File size and .ppt only not .pptx.

Our feelings to spms.

- Paper processing facility is great.
- We met problems at conference registration.
 - No documentation.
 - Test site (sandbox) would be great.
 - Hard to understand matrix.
 - Quota reached. But cannot stop.
 - No Undo
 - Cancellation problem
 - Cancel = disappear from database
- Registration = Battle to “I want to change.”

Great thanks to

- JACoW experts
 - Volker Schaa, Christine Petit-Jean-Genaz, Jan Chrin and Raphael Mueller
- JACoW members
 - Marie Robichon, Akihiro Shirakawa, Takashi Kosuge, Nobuhiro Kikuzawa, Kazuyuki Nigorikawa and Chiji Saji.
- KEK database administrator
 - Yasuko Nagatani
- And spms developers.
