Riccardo Maria BIANCHI (ATLAS)

“Visualization” session - HSF Workshop 2018, Naples

CWP status

- The “Roadmap” summary document is out:
<https://arxiv.org/abs/1712.06982>
It features a Visualisation section: for that, we condensed the content of the Visualisation CWP paper.
- We are editing the Viz chapter for final submission. Tom has done three passes already! The content is almost there, but we need your help to refine the content, please take the time to give a pass. Also:
 - Figures: please, provide high-res images for your project/experiment
 - Authors’ List: please, check your name and affiliation in the list; also, if we forgot somebody, please let us know.
Remember: in the CWP spirit, if you agree with the content and you want to support the paper’s guidelines, you can sign the paper even if you didn’t actively participate in the WG activities yet
- CWP repo: <https://github.com/HSF/Visualization>
