

**Session Program**

**9-12 Sept 2009**

**Low  $x$  2009**

***Structure function, QCD fits, low  $x$  session II***

Ischia Island, Italy

# Wednesday 9 September

15:00

## Structure function, QCD fits, low x session II

**Session** | **Location:** Ischia Island, Italy

15:00–15:20

### Analytic structure of Regge poles and its influence on high energy interactions

**Speaker**

Alexei Kaidalov

15:20–15:40

### Moebius representation of small-x evolution kernels at NLO

**Speaker**

Victor Fadin

15:40–16:00

### Operator product expansion at high energy in NLO

**Speaker**

Giovanni Chirilli

16:00–16:20

### Beyond JIMWLK: Reggeon Field Theory for every day

**Speaker**

Alex Kovner

16:20–16:40

### Coffee break

16:40–17:05

### Review of the COMPASS spin results

**Speaker**

Barbara Badelek

17:05–17:25

### Transverse-momentum dependent parton densities evolution equations

**Speaker**

Igor Cherednikov

17:25–18:30

### Discussion session: Theory, Spin, Structure functions, low x

**Speaker**

Amanda Cooper-Sarkar, Douglas Ross

18:30
