## Diffraction session I

**Session** | **Location:** Ischia Island, Italy

08:30–09:10

### Inclusive diffraction and leading baryons at HERA

#### Speaker

Alice Valkarova

09:10–09:35

### QCD Analysis of Inclusive Diffraction at HERA

#### Speaker

Marcella Capua

09:35–09:55

### Saturation, Fluctuations, and Diffractive Excitation in High Energy Collisions

#### Speaker

Gosta Gustafson

09:55–10:15

### Measurement of the longitudinal diffractive structure function at HERA

#### Speaker

David Salek

10:15–10:45

### Coffee break

10:45–11:00

### Diffraction in PYTHIA

#### Speaker

Sparsh Navin

11:00–11:25

### Diffraction at CDF and at the LHC

11:25–11:45

### The Study of Exclusive Charmonium States at CDF

#### Speaker

James Pinfold

11:45–12:05

### Soft models and survival probability

#### Speaker

Alan Martin

12:05–12:25

### High mass muon pairs in diffraction at CDF

#### Speaker

Mike Albrow

12:25–13:20

### Discussion session: Diffraction at HERA, Tevatron

#### Speaker

Alan Martin, Andy Pilkington, Alice Valkorava

13:20
