The screenshot shows the Indico event page for the International Teacher Weeks Programme 2018. The header features a globe made of flags and the event title. Below the header, the event dates (5-18 August 2018) and location (CERN) are displayed. A search bar is present. The main content area includes a left sidebar with navigation links (Overview, Timetable, Videoconference Rooms, Administrative Support) and a main text area with a description of the 2-week residential programme. It also lists contact information for the Teacher Programme Manager (Jeff Wiener) and emergency services (CERN fire brigade). A calendar icon shows the start and end times, and a location pin indicates the event is at CERN. A note mentions that more information will be available under the Timetable and that CERN is looking forward to welcoming participants in Geneva, Switzerland.

This 2-week residential programme, which will take place for a second consecutive year in 2018, is open to high school science teachers from around the world who would like to update their knowledge of particle physics, its associated technologies, and related subjects in a group of science teachers of different nationalities.

The **International Teacher Weeks Programme 2018** will take place from 5 - 18 August 2018. Lectures, on-site visits, exhibitions, Q&A-sessions and hands-on workshops will introduce its participants into cutting-edge particle physics. We hope our participants will go back as ambassadors, who pass on the subject to our next generation of physicists, engineers, IT specialists and and and ...
