

Session Program

1 December 2017

ARIES Meets Industry - accelerator application to the ship exhaust gases treatment

***Ideas of compact accelerator development for
the exhaust gases treatment and what could
be bought today in the particle accelerator
market for the ship needs?***

CERN, 222/R-003

Friday 1 December

11:00

11:30

Ideas of compact accelerator development for the exhaust gases treatment and what could be bought today in the particle accelerator market for the ship needs?

Session | Location: CERN, 222/R-003
