4LP2-11 Experimental Test of a Multistage Cooled Current Lead for Superconducting High Current DC Applications, designed for an Operating Current of 20 kA

Thursday 21 September 2017 10:25 (1 minute)

Author: NOE, Mathias (Chair for Energy Systems and Energy Management at University of Kaiserslautern)

Presenter: NOE, Mathias (Chair for Energy Systems and Energy Management at University of Kaiserslautern)

Session Classification: Poster : 4LP2 - Ancillaries and Technology
