

Session Program

17-21 Sept 2017

EUCAS 2017

Short Courses

Geneva, CIG

Sunday 17 September

08:30

Short Courses

Session | Location: CERN

08:30-16:30 **RF Superconducting Cavities**

08:30-16:30
Superconducting electronics - from Josephson effects to quantum computing

08:30-16:30
High Temperature Superconductors: the path from the materials to the technical conductors

08:30-16:30 **Superconducting Power Devices**

08:30-16:30
Design of Superconducting magnets for particle accelerators and detectors

17:00
