

Session Program

17-21 Sept 2017

EUCAS 2017

3LO4 - Power Transmission Lines and Cables

Geneva, CIG

Wednesday 20 September

15:50

3LO4 - Power Transmission Lines and Cables

Session | Location: Geneve , CIGR Room 1

15:50-16:20

3LO4-01 Recent status and progress on the HTS applications of AC and DC power transmission

Speaker

Minwon Park

16:20-16:35

3LO4-02 The Supernet NL Project: The Netherlands High Voltage HTS Cable Project

Speaker

Babak Gholizad

16:35-16:50

3LO4-03 The second cooling test of 1000-meter superconducting DC cable system in Ishikari

Speaker

Noriko Chikumoto

16:50-17:05

3LO4-04 Protection against the ground fault for 275 kV HTS cable and the experiment

Speaker

Tomohiro Takagi

17:05-17:20

3LO4-05 Three years operation experience of the AmpaCity system installation in Essen, Germany

Speaker

Jean-Maxime Saugrain

17:20-17:35

3LO4-06 Status of the MgB₂-based high-power DC cable demonstrator within BEST PATHS

Speaker

Christian-eric Bruzek

17:35-17:50

3LO4-07 3S - Superconducting DC-Busbar for High Current Applications

Speaker

Steffen Elschner

17:50-18:05

3LO4-08

18:05
