## Senior Data Scientist at Internal Displacement Monitoring Centre (IDMC)

*Monday 13 November 2017 19:55 (12 minutes)*

Leonardo holds a PhD in nuclear physics. He worked for two of the world's leading research organizations: CERN, the European Organization for Nuclear Research and LBL, the Lawrence Berkeley National Laboratory. Leonardo is part of THE Port association which runs humanitarian and technology related hackathons in Geneva.

Passionate about how innovation can help solve humanitarian challenges, he joined the Internal Displacement Monitoring Centre (IDMC) in 2016 to carry out cutting-edge research on displacement related to conflicts and natural disasters worldwide.

**Presenter:** MILANO, Leonardo

**Session Classification:** Presentations
