

# CERN-ICEC-STFC-hosted Workshop on Innovative, Robust and Affordable Medical Linear Accelerators for Challenging Environments

## Friday 27 October 2017

**Session V: Beam Production and Control (Convener: Deepa Angal-Kalinin) - 503/1-001 - Council Chamber (08:30 - 10:15)**

time	[id] title	presenter
08:30	[123] Introduction and goals of the Session	ANGAL-KALININ, Deepa
08:40	[97] Beam Quality – Scatters and Collimator Systems	PALTA, Jatinder
08:55	[124] Source Technologies and Magnets	CARLONE, Marco
09:10	[99] Electron Beam Generation and Collection	MILITSYN, Boris
09:25	[100] Beam Delivery Options Including Beam Rastering and Scanning	Dr SHEEHY, Suzie
09:40	[102] Open Discussion Including Subsystems (targets, magnets and their power supplies, vacuum, diagnostics)
