

Workshop on High Energy Physics Phenomenology XV

Thursday 14 December 2017 - Saturday 23 December 2017

IISER Bhopal

Scientific Programme

The 15th Workshop on High Energy Physics and Phenomenology (WHEPP XV) is scheduled to be held from December 14-23, 2017 at IISER Bhopal. As you may be aware, WHEPP is a series of international workshops on Particle Physics since 1989 that has been organised very successfully every two years. The goal is to bring together those working in the broad field of high energy physics for about 10 days and have talks and intensive discussions in larger and smaller groups to provide a stimulus for new ideas and approaches to understanding issues in high energy physics.

WHEPP XV will have 5 working groups.
