Resurgence: foundations, universality and applications

Monday, 9 July 2018 11:50 (50 minutes)

Resurgence is a deep phenomenon found in a wide spectrum of mathematical and physical models. I will try to explain why this is the case and demonstrate its power, much of which lies still ahead.

Primary authors: Prof. DUNNE, Gerald (The University of Connecticut); Prof. COSTIN, Ovidiu (The Ohio State University); Prof. COSTIN, Rodica (The Ohio State University)

Presenter: Prof. COSTIN, Ovidiu (The Ohio State University)

Session Classification: Workshop on Resurgent Asymptotics in Physics and Mathematics
