

## COD-21 (closed meeting)

Contribution ID: 4

Type: **not specified**

# FORUM of ROD teams

*Tuesday, September 22, 2009 3:35 PM (55 minutes)*

Could be a discussion in plenary session on a few open questions *fixed beforehand*, including feedback from rod-teams along the following lines for example (if gotten before EGEE09 a summary will be presented, if not, it could be debated):

- on the new operations model,
- on the communication channels between rod and c-cod and
- on what need to stay after EGEE-III from the current “COD” activity (take out c-cod)

The above is a strawman and is bound to evolve closer to the dates of the meeting
