

ISOLDE Workshop and Users meeting 2009

Wednesday, 18 November 2009

Session 3: Future Experiments and Facilities - 503/1-001 - Council Chamber (14:10 - 16:00)

time	[id] title	presenter
14:10	[46] Towards building a Radionuclide Bank from proton irradiated Hg and Pb-Bi targets	MAITI, Moumita
14:40	[33] A Plan for building a Heavy Ion Accelerator in Korea	HONG, Seung-Woo
15:00	[28] Ion production needs for beta beams	WILDNER, Elena
15:20	[30] Target and Ion Source Development : (n,X) reaction for ^6He neutrino beams tested at ISOLDE	STORA, Thierry
15:40	[2] The possibility for a rare beam trapping facility in Israel	HASS, Michael
