

Session Program

26-29 Oct 2017

Neutrino Platform meeting and visit

Cryogenics

CERN, 222/R-003

Thursday 26 October

16:45

Cryogenics

Session | **Location:** CERN, 222/R-003 | **Convener:** Cristiano Galbiati

16:45–17:15

The ProtoDUNE cryostat: technical data, detailed performance, assembly time, costs, and supports for internal detectors

Speaker

Filippo Resnati

17:15–17:45

The ProtoDUNE cryogenics: technical data, detailed performance, assembly time and costs

Speaker

Johan Bremer

17:45–18:15

The DarkSide-20k cryogenics: baseline design, plans for construction and testing, simplification in a LAr bath

Speaker

Dr Hanguo Wang

18:15–19:00

Discussion and Brainstorming

Speaker

Cristiano Galbiati

19:00
