

Fear Free

Jakub Jaros

Idea

Fear simulation under controlled conditions to help people with their phobias.

Prototype

- Use the Hi-Lumi LHC VR application as a starting points
- Modify it to simulate at least two types of Phobia:
 - Falling from the height
 - Claustrophobia – going into the narrow and dark tunnel
 - <https://hilumi3d-online.web.cern.ch/hilumi3d-online/>
- Talk to:
 - Psychologist , Medical expert of fear, Universities, Vr festival
